Real Property Management Wake County tapped for honor; company is in top 10 percent of all franchises across the nation
Raleigh, NC -- (ReleaseWire) -- 02/09/2016 -- Real Property Management Wake County was recently tapped as one of the top 10 percent franchises within the national Real Property Management company.

The Wake County office was one of 16 offices out of more than 270 to earn the prestigious Presidents Circle Silver Award.

"This is a tribute to the hard working people in this office and our customers. Our customers put us in the top 10 percent because we offer a level of service that's hard to beat. We get out there every day and work hard for the people trust their rental property to us," said Owen White, owner of Real Property Management Wake County.

Mr. White said the company has grown over the years, thanks to the dedicated customers and staff. That growth was recognized when the office received the Presidents Circle Silver Award. Silver winners met stringent criteria related to growth, marketing, operations, customer service, participation in nationwide programs, and be top performers compared to their peers.

"This award is really about customer and client service. Our business has grown because we take care of the people and the property they. Other property owners have seen the commitment to quality we have and come on board with us," Mr. White said. "When you take care of the customer, he will come back. He will tell other people and they will become your customers too."

The award is also about the staff at Real Property Management Wake County.

"You can't achieve this level of growth and this kind of honor unless you have employees who believe in the business and the mission. This award goes to everyone who works here, no matter what they do," Mr. White said. "Without them, we would not be here. Their commitment to excellence is just the highest."

Property Management Business Solutions carefully reviewed every one of the franchise operations across the nation when preparing for the awards. Company directors said the competition was tough. Real Property Management Wake County had what it takes to rise to the top, they said.

"The President's Circle recognizes the efforts of our franchisees in growing their business, providing quality service, and embracing the systems and programs of the Real Property Management organization. Silver Award winners are among the best offices in our system," said Lukas Krause, COO of Property Management Business Solutions.
